Choice of patient restraint straps 8
Choice of lifting bridles 9

RollUP RL2000

RL2000R-V03 10
with integrated lifting bridle with fixed length

RL2000R-V13 12
with integrated lifting bridle with adjustable length

RL2000R-V23 14
with lifting bridle Balance

RL2000R-V33 16
with lifting bridle Standard

Content *Page*

RollUP RL3000

RL3000R-V03 **18**
with integrated lifting bridle with fixed length

RL3000R-V13 **20**
with integrated lifting bridle with adjustable length

RL3000R-V23 **22**
with lifting bridle Balance

RL3000R-V33 **24**
for usage with lifting bridle Standard

RollUP RL4000

RL4000R-V03 **26**
with integrated lifting bridle with fixed length

RL4000R-V13 **28**
with integrated lifting bridle with adjustable length

RL4000R-V23 **30**
for usage with lifting bridle Balance

RL4000R-V33 **32**
for usage with lifting bridle Standard

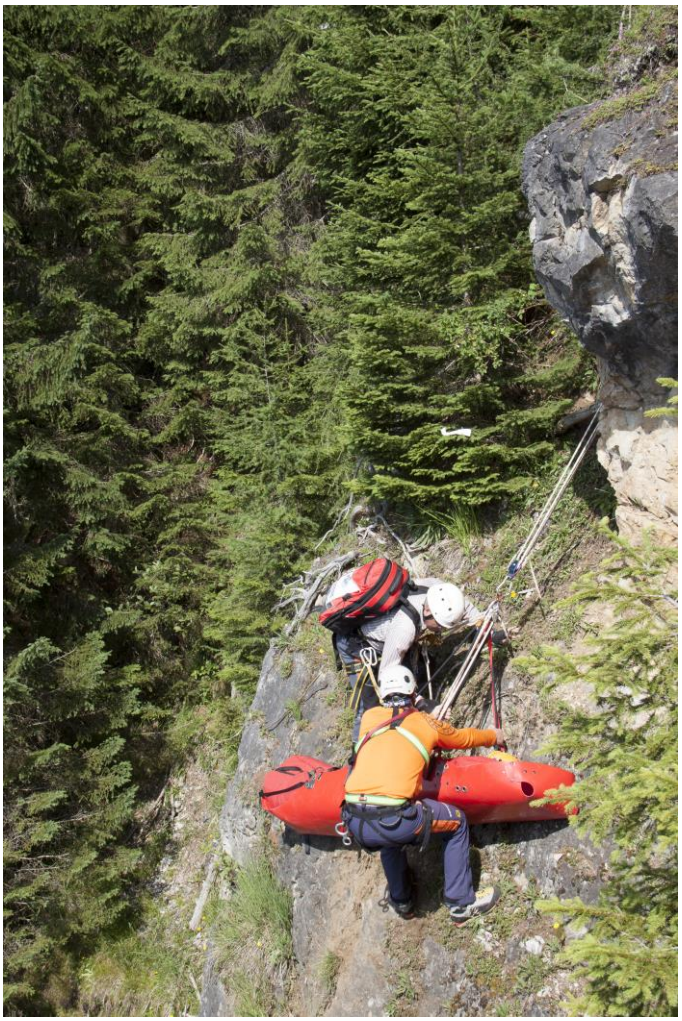
Lifting bridles

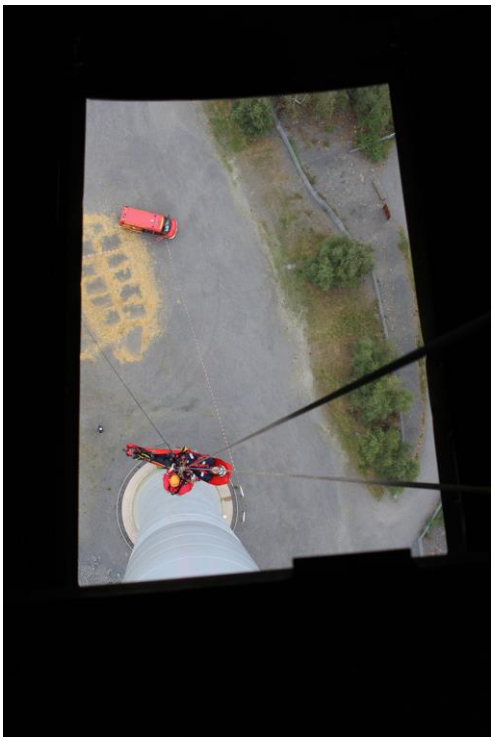
BALANCE & STANDARD **34**

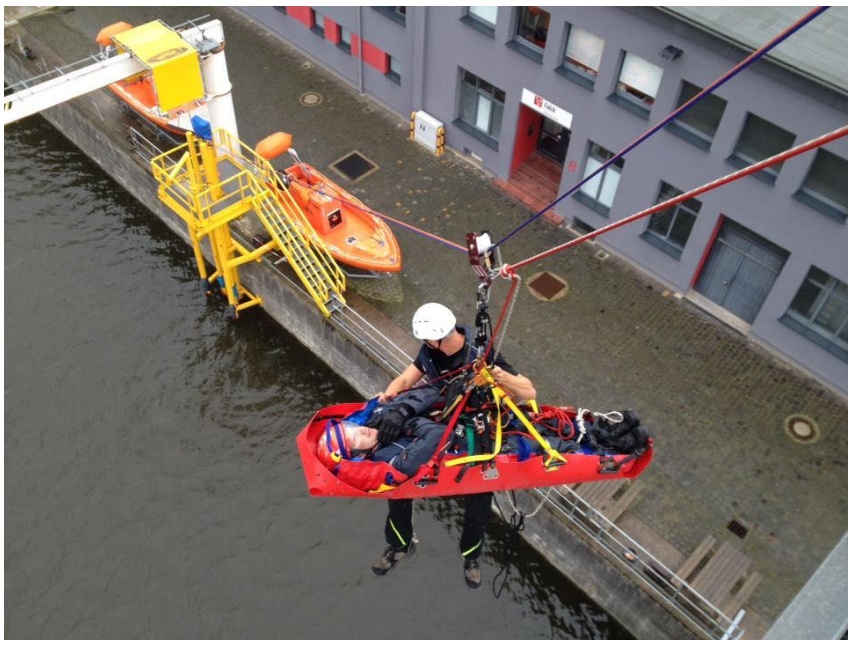
Accessories **35**

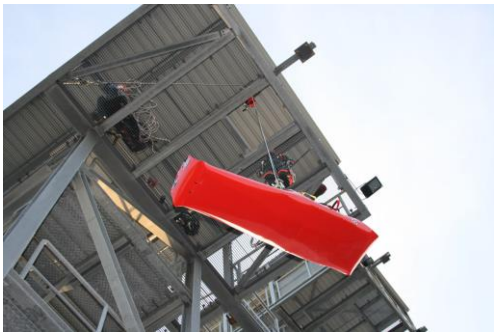
The perfect solution for most rescue situations

with superior safety, protection and comfort for the patient and ease of use for the rescuer - ready for everything from helicopter lifting to cave rescue









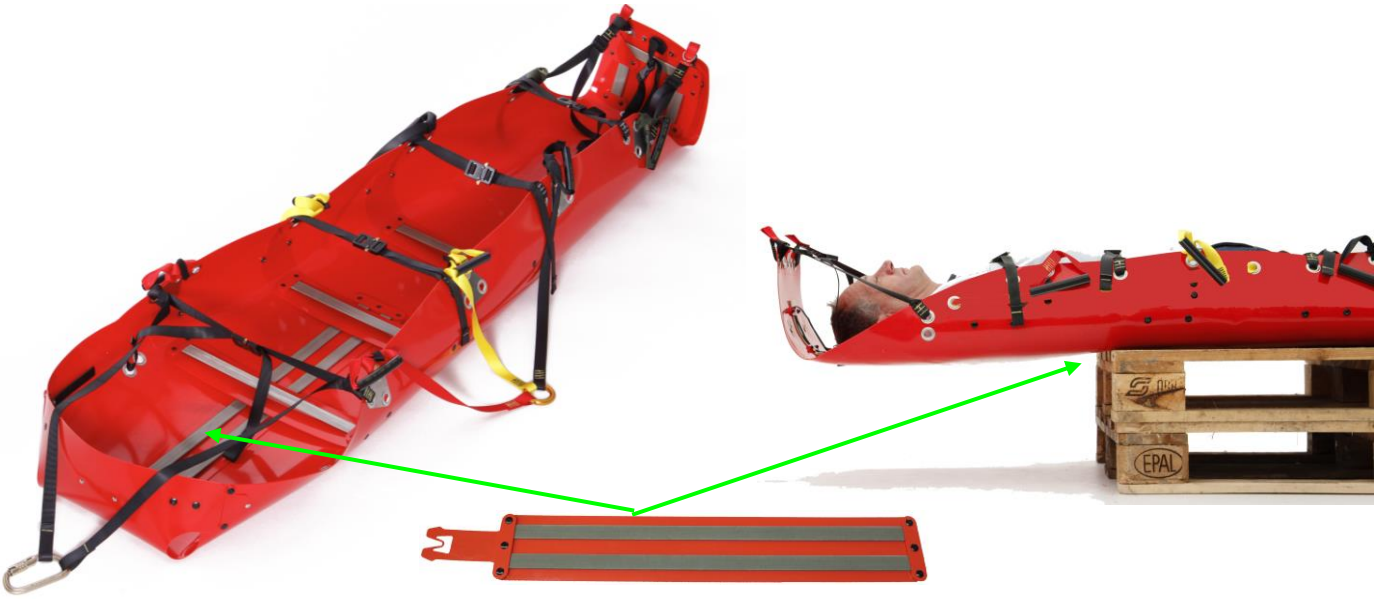
RollUP
- the patient friendly rollable stretcher !

- **No compression of chest, hips and legs !**

  Three removable crosswise affixed glass fibre stiffeners prevents the painful and dangerous compression of the chest, hips and legs while offering the same c a rigid basket stretcher.

- **Protected spine !**

  One removable lengthwise affixed stiffener protects the spine when the stretcher is pulled over an edge or rough ground.



RollUP
- the rescuer friendly rollable stretcher !

- **The underside is free of straps !**
  The lifting straps are either integrated in the strap system or easily hooked into the triangular plates along the stretcher's sides. This is possible because all lifting straps and carry handles are anchored in the patented steel plates the along the edges.

- **Tested and certified !**

  The RollUP stretchers successfully passed the TÜV Austria´s and the German Army´s tests.
  TÜV tested and confirmed compliance with the following norms:
  EN 813:2008 Seatbelts, **EN 1497:2007** Rescue belts, **EN 354:2010** Connecting straps, **EN 12277:2007** Desender straps, **EN 358:2000** Safety belts and connecting straps, **DIN 23400:2008** Rescuestretcher for mining

  The German Army has approved the stretcher for helicopter lifting.
  Reg.-Nr.: 6545-2013-01, Issue 4 of 14.8.2015

RollUP stretchers are available in 3 different shapes

RL2000 **Soft head area and lengthwise adjustable foot area**

RL3000 **Protective head area and closed foot area**

RL4000 **Protective head area and length adjustable foot area**

- ***and each stretcher with a choice of Patient Restraint Straps with 3 different buckles:***

RL2000RP – RL3000RP – RL4000RP

with heavy duty plastic quick-release buckle
RLP2004HD

RL2000RS – RL3000RS – RL4000RS

with heavy duty steel frame buckle
with sliding bridge
RLP2003SB

RL2000RX – RL3000RX – RL4000RX

with heavy duty COBRA steel quick-release buckle
RLP2006

RollUP stretchers are available with 4 different lifting bridles:

Integrated Lifting Bridle with fixed length

Art. No.	Page
RL2000RP-V03 RL2000RS-V03 RL2000RX-V03	10-11
